Investor Presentation

AUGUST 2022

- VISHAY TODAY
- Q2 FINANCIALS & METRICS

Comments in this presentation other than statements of historical fact may constitute forward-looking statements. Words such as “believe,” “estimate,” “will be,” “will,” “would,” “expect,” “anticipate,” “plan,” “project,” “intend,” “could,” “should” or other similar words or expressions often identify forward-looking statements. Such statements are based on current expectations only, and are subject to certain risks, uncertainties and assumptions, many of which are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results, performance or achievements may vary materially from those anticipated, estimated or projected. Factors that could cause actual results to materially differ are described in our filings with the U.S. Securities and Exchange Commission, including our annual reports on Form 10-K and quarterly reports on Form 10-Q, specifically in the sections titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Risk Factors.” The Company undertakes no obligation to update any forward-looking statements.

NON-GAAP FINANCIAL MEASURES

Management uses measures which are not recognized in accordance with U.S. generally accepted accounting principles (“GAAP”) to evaluate its business, and may refer to such measures in this presentation. These measures are considered “non-GAAP financial measures” under the U.S. Securities and Exchange Commission rules. These non-GAAP financial measures are intended to supplement our GAAP measures of performance and liquidity. These non-GAAP measures may include: adjusted net earnings, adjusted gross margin, adjusted operating margin, adjusted earnings per share, free cash, cash available to enhance stockholder value, EBITDA, Adjusted EBITDA, EBITDA margin, breakeven point, contribution margin, and various measures and metrics “excluding VPG”.

“**Adjusted net earnings**” is net earnings (loss) determined in accordance with GAAP, adjusted for various items that Management believes are not indicative of the intrinsic operating performance of the Company, such as restructuring and severance costs, asset write-downs, impairment of goodwill, the direct impact of the COVID-19 outbreak, and other significant charges or credits that are important to understanding our intrinsic operations. The measurement is used by Management to evaluate our performance, and also is a key performance metric for executive compensation. Reconciling items to arrive at adjusted net earnings are more fully described in the Company’s annual report on Form 10-K and its quarterly reports on Forms 10-Q.

“**Adjusted gross margin**” is gross margin determined in accordance with GAAP (net revenue less costs of products sold and certain other period costs), adjusted to exclude items that Management believes are not indicative of the intrinsic operating performance of the Company, such as losses on purchase commitments, the direct impact of the COVID-19 outbreak, and unusual inventory write-downs. It may be expressed in dollars or as a percentage of net revenue. The measurement is used by Management to evaluate the performance of our business segments, as well the business as a whole. Reconciling items to arrive at adjusted gross margin are also considered in the calculation of adjusted operating margin and adjusted net earnings. Such reconciling items are more fully described in the Company’s annual report on Form 10-K and its quarterly reports on Forms 10-Q.

“**Adjusted operating margin**” is operating income determined in accordance with GAAP, adjusted for items that Management believes are not indicative of the intrinsic operating performance of the Company. It may be expressed in dollars or as a percentage of net revenue. The measurement is used by Management to evaluate our performance. Reconciling items to arrive at adjusted gross margin are also considered in the calculation of adjusted operating margin; and reconciling items to arrive at adjusted operating margin are also considered in the calculation of adjusted net earnings. Such reconciling items are more fully described in the Company’s annual report on Form 10-K and its quarterly reports on Forms 10-Q.

“**Adjusted earnings per share**” is “adjusted net earnings” divided by the weighted average diluted shares outstanding for a period, adjusted for the effect of reconciling items, if applicable, on the diluted weighted average shares outstanding. For example, some potential common shares which are anti-dilutive to the computation of GAAP earnings per share may be dilutive after considering reconciling items.

“**Free cash**” is cash generated from operations in excess of our capital expenditure needs and net of proceeds from the sale of assets. Management uses this measure to evaluate our ability to fund acquisitions, repay debt, and otherwise enhance stockholder value through stock buy-backs or dividends.

“**Cash available to enhance stockholder value**” is “free cash” less cash paid for acquisitions (including acquisition-related restructuring) and less debt principal payments. While internal growth and targeted acquisitions also enhance stockholder value through the generation of “free cash”, Management uses this measure to evaluate our ability to fund further enhancements to stockholder value, such as stock buy-backs or dividends.

“**EBITDA**” is earnings before interest income and expense, provision for income taxes, depreciation expense, and amortization expense. Management believes that EBITDA provides additional information with respect to a company’s performance and ability to meet its future capital expenditures and working capital requirements, particularly when evaluating acquisition targets.

“**Adjusted EBITDA**” is EBITDA adjusted for relevant reconciling items used to calculate adjusted net earnings (described above). Adjusted EBITDA is substantially similar to, but not identical to, a measure used in the calculation of financial ratios required for covenant compliance under Vishay’s revolving credit facility.

“**EBITDA Margin**” is “adjusted EBITDA” divided by net revenues.

“**Breakeven point**” represents the quantity of output where total revenues and total operating costs are equal (in other words, where the operating income is zero). Management uses this measurement in evaluating our cost structure.

“**Contribution margin**,” sometimes referred to as “variable margin,” is calculated as net revenue less costs that vary with respect to quantity produced (or another output-related driver). It may be expressed in dollars or as a percentage of net revenue. Management uses this measure to determine the amount of profit to be expected for any increase in revenues in excess of the break-even point.

Measurements “excluding VPG” reflect the historical businesses which are still part of Vishay today. The Company spun-off VPG on July 6, 2010. While VPG does not qualify as a “discontinued operation” under GAAP, Management believes that certain evaluations “excluding VPG” are meaningful, particularly when evaluating growth and other performance metrics. Historical VPG data is reported as a separate operating segment in Vishay’s annual report on Form 10-K and its quarterly reports on Forms 10-Q during the periods it was included in Vishay’s consolidated financial statements: This discrete data is the basis to calculate any measurements “excluding VPG”. These measures do not have uniform definitions and accordingly, these measures, as calculated by Vishay, may not be comparable to similarly titled measures used by other companies. Such measures should not be viewed as alternatives to GAAP measures of performance or liquidity. However, Management believes such measures are meaningful to an evaluation of our business, as described above.

Vishay Today

- Broad and competitive product and technology portfolio:
Solution provider and valuable partner for customers.
- Broad market penetration
 - Wide range of end markets.
 - Balanced geographic manufacturing footprint.
 - Right mix of sales channels.
- Contribution margin of 45% plus.
- Reliable generation of “free cash.”
- Regular cash dividend program.

Broad Product Portfolio & Broad Market Penetration

Revenues 2021: \$3.2 billion

Strong Generation of Free Cash

Stockholder Return Policy – First in Vishay’s History

Board has adopted new policy:

- Return at least 70% of annual free cash flow, net of scheduled principal payments of long-term debt
- Returns in the form of dividends and/or stock repurchases
- Intend to fund capital distribution from historically strong cash flows from operations

Expectations for 2022

- Return at least \$100 million
 - ~\$58 million in existing quarterly dividends
 - At least \$42 million in share repurchases

Structured to enhance returns to stockholders *and* invest in growth initiatives

Annualized Cash Dividend \$0.40

Enhancing stockholder value:

Q4 2021	\$ 0.1000	+5%
Q2 2019	\$ 0.0950	+12%
Q2 2018	\$ 0.0850	+26%
Q4 2017	\$ 0.0675	+8%
Q1 2016	\$ 0.0625	+4%
Q1 2014	\$ 0.0600	Quarterly dividend initiated

Future dividends subject to Board approval.

Growth Drivers

Vishay is well positioned to participate in the markets expected to show solid growth over the next years.

- Connectivity
- Mobility
- Sustainability

FINANCIALS AND METRICS Q2 2022

Highlights Q2 2022

- Revenues Q2 of \$864 million.
- Gross margin Q2 of 30.3%; adjusted gross margin of 31.0%.
- Operating margin Q2 of 17.5%; adjusted operating margin of 18.3%.
- EPS Q2 of \$0.78; adjusted EPS of \$0.82.
- Free Cash for trailing 12 months of \$139 million.
- Total Stockholder Return Q2 of \$40.6 million--\$14.3 million of dividend payments and \$26.3 million of stock repurchases.
- Guidance Q3 2022 for revenues of \$860 to \$900 million and at a gross margin of 29.0% plus/minus 50 basis points at an exchange rate USD/EUR of 0.98.
