(1) Assumes conversion of all of the holder's LYONS at a conversion rate of 17.6686 shares of common stock per \$1,000 principal amount at maturity of the LYONS. This conversion rate is subject to adjustment, however, as described under "Description of the LYONS --Conversion Rights --Conversion Rate and Delivery of Shares of common stock" in the prospectus. As a result, the number of shares of common stock issuable upon conversion of the LYONS may increase or decrease in the future. Does not include shares of common stock that may be issued by us upon purchase of LYONS by us at the option of the holder.

(2) Calculated based on Rule 13d-3(d)(i) of the Exchange Act, using 144,083,643 shares of common stock outstanding as of December 5, 2001. In calculating this amount for each holder, we treated as outstanding the number of shares of common stock issuable upon conversion of all of that holder's LYONS, but we did not assume conversion of any other holder's LYONS. Does not include shares of common stock that may be issued by us upon purchase of LYONS by us at the option of the holder.

(3) Information about holders of LYONS who wish to become selling securityholders under the registration statement will be set forth in supplements which will be included in post-effective amendments to the registration statement of which this prospectus supplement is part.

(4) Assumes that any other holders of LYONS, or any future pledgees, donees, assignees, transferees or successors of or from any such other holders of LYONS, do not beneficially own any shares of common stock other than shares of common stock issuable upon conversion of the LYONS at the initial conversion rate.

INVESTING IN THE LYONS INVOLVES RISKS THAT ARE DESCRIBED IN THE "RISK FACTORS" SECTION BEGINNING ON PAGE 10 OF THE PROSPECTUS.
