Item 8.01 - Other Events

On November 12, 2026, Vishay Intertechnology, Inc. ("Vishay"), through a wholly-owned subsidiary, entered into a binding term sheet with Kaynes Technology India Limited ("Kaynes Technology") to establish a semiconductor manufacturing joint venture in India. The joint venture entity plans to establish captive semiconductor back-end manufacturing capabilities for Vishay, including post-fabrication wafer processing, assembly, test, and packaging, and may also provide services to third-party customers. In accordance with the terms and conditions of the binding term sheet, Vishay and Kaynes Technology plan to file a joint application to avail the joint venture entity of central and state government support under the recently announced India Semiconductor Mission 2.0 program.

Pursuant to the term sheet, Vishay would invest $56.4 million for a 49% interest in an existing subsidiary of Kaynes Technology, while Kaynes Technology would retain a 51% interest. Any future funding of the joint venture is expected to be made by both parties based on their respective ownership interests. In accordance with the terms and conditions of the binding term sheet, Vishay has rights to determine certain matters for the joint venture entity, including appointment of auditors, internal controls and IT systems, selection of vendors and equipment, and approval of customers outside the Vishay group; specified reserved matters require both parties' approval.

The proposed transaction remains subject to the execution of definitive agreements, required approvals and other customary closing conditions.
