VISHAY WILLING TO CONSIDER FURTHER INCREASING \$23.00 PER SHARE CASH OFFER

Malvern, PA – October 6, 2008 – Vishay Intertechnology (NYSE: VSH) today issued the following statement to stockholders of International Rectifier Corporation (NYSE: IRF) with respect to the upcoming election of directors at International Rectifier’s delayed 2007 Annual Meeting, scheduled to be held on October 10, 2008:

“We continue to believe our \$23.00 per share cash offer represents full, fair and immediate value for International Rectifier stockholders. We also continue to believe that our premium offer is far superior to what International Rectifier could hope to achieve on its own in the foreseeable future through execution of its three-year turnaround ‘roadmap’ that is, as a leading independent research analyst recently described it, ‘too aggressive’ and ‘an optimistic outlook indeed.’ⁱ We remain highly skeptical about the dramatic improvement reflected in International Rectifier’s most recent business plan, which was announced shortly after we publicized our initial acquisition proposal. Nonetheless, if International Rectifier can, through good faith negotiations, demonstrate to Vishay that a further price increase is justified, Vishay would be willing to improve its offer. In this regard, Vishay would seek to obtain substantiation of International Rectifier’s new business plan, particularly the \$60 million reduction in cost of goods sold within two years and the projected substantial increase in revenues and gross margin.

“We believe that the analysis of RiskMetrics (formerly ISS) – which is recommending that International Rectifier vote for Vishay’s three independent nominees on the BLUE card – is absolutely right in pointing out that there is substantial upside to supporting the Vishay candidates and substantial downside if shareholders do not support them. Indeed, as RiskMetrics (ISS) suggests, if our three independent nominees who are open minded to a stockholder value maximizing transaction are not elected, we will be forced to withdraw our tender offer for International Rectifier, because the prospect of achieving a transaction could be years away.

“We believe International Rectifier stockholders have everything to gain and nothing to lose by supporting Vishay’s three independent director nominees. We urge all International Rectifier stockholders to send a message that the board cannot ignore – that you require directors who will take the necessary steps to maximize stockholder value. Vote **FOR** the election of Vishay’s three independent nominees and the proposed Bylaw amendments on the **BLUE** proxy card today. It’s your investment; it’s your company; it’s your right to decide the future.”

As previously announced, on September 10, 2008, Vishay increased the price of its all-cash offer to acquire all of the outstanding shares of International Rectifier common stock to \$23.00 per share. The offer represents a premium of 30% over International Rectifier’s average closing price for the 30 trading days preceding the announcement of its original acquisition proposal on August 14, 2008, and a premium of more than 70% over International Rectifier’s enterprise valueⁱⁱ for that period. On September 29, 2008, Vishay commenced a Tender Offer to purchase all of the outstanding shares of International Rectifier common stock for \$23.00 per share in cash.

International Rectifier stockholders are reminded that their vote is very important regardless of the number of shares of common stock they own. Whether or not stockholders are able to attend International Rectifier’s Annual Meeting in person, they should submit a **BLUE** proxy by Internet or by telephone as described on the **BLUE** proxy card, or sign and date the **BLUE** proxy card and return it as soon as possible.

If any of these risks or uncertainties materializes, the acquisition may not be consummated, the potential benefits of the acquisition may not be realized, Vishay's and/or International Rectifier's operating results and financial performance could suffer, and actual results could differ materially from the expectations described in these forward-looking statements.
