Item 2.02 - Results of Operations and Financial Condition

On July 28, 2009, Vishay Intertechnology, Inc. issued a press release announcing its financial results for the fiscal quarter and six fiscal months ended June 27, 2009. A copy of the press release is attached as Exhibit 99 to this report.

Item 7.01 - Regulation FD Disclosure

Computational Guidance on Earnings Per Share Estimates

The Company frequently receives questions from analysts and shareholders regarding its diluted earnings per share ("EPS") computation. The information furnished in this Form 8-K provides additional information on the impact of key variables on the EPS computation, particularly as they relate to the third quarter of 2009.

Accounting principles require that EPS be computed based on the weighted average shares outstanding ("basic"), and also assuming the issuance of potentially issuable shares (such as those subject to stock options, warrants, convertible notes, etc.) if those potentially issuable shares would reduce EPS ("diluted").

The number of shares related to options, warrants, and similar instruments included in diluted EPS is based on the "Treasury Stock Method" prescribed in Statement of Financial Accounting Standards ("SFAS") No. 128. This method assumes a theoretical repurchase of shares using the proceeds of the respective stock option or warrant exercise at a price equal to the issuer's average stock price during the related earnings period. Accordingly, the number of shares includable in the calculation of diluted EPS in respect of stock options, warrants and similar instruments is dependent on this average stock price and will increase as the average stock price increases. This method is also utilized for net share settlement debt.

The number of shares includable in the calculation of diluted EPS in respect of conventional convertible or exchangeable securities is based on the "If Converted" method prescribed in SFAS No. 128. This method assumes the conversion or exchange of these securities for shares of common stock. In determining if convertible or exchangeable securities are dilutive, the interest savings (net of tax) subsequent to an assumed conversion are added back to net earnings. The shares related to a convertible or exchangeable security are included in diluted EPS only if EPS as otherwise calculated is greater than the interest savings, net of tax, divided by the shares issuable upon exercise or conversion of the instrument ("incremental earnings per share"). Accordingly, the calculation of diluted EPS for these instruments is dependent on the level of net earnings. Each series of convertible or exchangeable securities is considered individually and in sequence, starting with the series having the lowest incremental earnings per share, to determine if its effect is dilutive or anti-dilutive.

The following estimates of shares expected to be used in the calculation of diluted EPS consider the number of the Company's shares currently outstanding and the Company's stock options, warrants and convertible or exchangeable securities currently outstanding and their exercise and conversion features currently in effect. Changes in these parameters could have a material impact on the calculation of diluted EPS.

The following estimates of shares expected to be used in the calculation of diluted EPS should be read in conjunction with the information on earnings per share in the Company's filings on Form 10-Q and Form 10-K. These estimates are unaudited and are not necessarily indicative of the shares used in the diluted EPS computation for any prior period. The estimates below are not necessarily indicative of the shares to be used in the quarterly diluted EPS computation for any period subsequent to the third quarter of 2009. The Company assumes no duty to revise these estimates as a result of changes in the parameters on which they are based or any changes in accounting principles. Also, the presentation is not intended as a forecast of EPS values or share prices of the Company's common stock for any period.

For the third quarter of 2009:

- The Company has approximately 186 million shares issued and outstanding, including shares of common stock and class B common stock.
- The number of shares included in diluted EPS related to options, warrants, and similar instruments does not vary significantly and is generally less than 1 million incremental shares.
- The Company's exchangeable unsecured notes due 2102 are dilutive at quarterly earnings levels in excess of approximately \$3 million. The exchangeable unsecured notes are exchangeable for approximately 6 million shares. Quarterly interest, net of tax, is approximately \$0.1 million.

Title: Executive Vice President and Chief Financial Officer

Vishay Reports Results for Second Quarter 2009

- Revenues for second quarter 2009 were \$460 million.
- Net loss attributable to Vishay stockholders of \$0.32 per share for the second quarter 2009 was impacted by various items (enumerated below) which had a negative \$0.22 per share after tax effect on the net loss attributable to Vishay stockholders, for an adjusted net loss of \$0.10 per share.
- Fixed costs reduced by \$124 million in first half 2009 compared to first half 2008.
- Cash generated from operations in first half of 2009 was \$69 million and capital expenditures were \$18 million.
- Recovery for semiconductors: book-to-bill of 1.19 for semiconductors so far in July.

MALVERN, Pa.--(BUSINESS WIRE)--July 28, 2009--Dr. Felix Zandman, Executive Chairman of the Board, and Dr. Gerald Paul, President and Chief Executive Officer of Vishay Intertechnology, Inc. (NYSE:VSH), announced today that revenues for the fiscal quarter ended June 27, 2009 were \$460.3 million, compared to \$774.4 million for the fiscal quarter ended June 28, 2008. The net loss attributable to Vishay stockholders for the fiscal quarter ended June 27, 2009 was \$58.9 million, or \$0.32 per share, compared to a net loss attributable to Vishay stockholders of \$747.9 million, or \$4.01 per share for the fiscal quarter ended June 28, 2008.

The net loss attributable to Vishay stockholders for the fiscal quarter ended June 27, 2009 was impacted by pretax charges for restructuring and severance costs of \$12.1 million and for an amended executive employment agreement of \$57.8 million, partially offset by a gain of \$28.2 million on settlement of matters related to the acquisition of International Rectifier's Power Control Systems business. These items and their related tax effects had a negative \$0.22 per share effect on the net loss attributable to Vishay stockholders.

The net loss attributable to Vishay stockholders for the fiscal quarter ended June 28, 2008 was substantially attributable to a noncash goodwill impairment charge of \$800 million (\$770 million, net of tax). The second quarter 2008 results also include a pretax charge for restructuring and severance costs of \$8.9 million and \$9.9 million of tax expense associated with the repatriation of cash from certain non-U.S. subsidiaries. On an after tax basis, these items and the goodwill impairment charge had a negative \$4.21 per share effect on income (loss) from continuing operations.

Revenues for the six fiscal months ended June 27, 2009 were \$909.8 million, compared to \$1,507.7 million for the six fiscal months ended June 28, 2008. The net loss attributable to Vishay stockholders for the six fiscal months ended June 27, 2009 was \$88.0 million, or \$0.47 per share, compared to a net loss attributable to Vishay stockholders of \$778.6 million, or \$4.18 per share for the six fiscal months ended June 28, 2008.

The net loss attributable to Vishay stockholders for the six fiscal months ended June 27, 2009 was impacted by pretax charges for restructuring and severance costs of \$31.0 million and for an amended executive employment agreement of \$57.8 million, partially offset by a gain of \$28.2 million on settlement of matters related to the acquisition of International Rectifier's Power Control Systems business. These items and their related tax effects had a negative \$0.29 per share effect on the net loss attributable to Vishay stockholders.

The net loss attributable to Vishay stockholders for the six fiscal months ended June 28, 2008 was impacted by pretax charges for goodwill impairment of \$800 million, restructuring and severance costs of \$27.1 million, related asset write-downs of \$4.2 million, and \$9.9 million of tax expense associated with the repatriation of cash from certain non-U.S. subsidiaries. Including the tax effects of the pretax charges, these items had a negative \$4.30 per share effect on earnings (loss) from continuing operations. The net loss for the six fiscal months ended June 28, 2008 also included a loss on discontinued operations of \$42.1 million, or \$0.23 per share.

As previously disclosed, the results of operations for the fiscal quarter and six fiscal months ended June 28, 2008 have been recast to include the retrospective effects of FSP APB 14-1. The retrospective application of this FSP increased the reported loss from continuing operations for the quarter and year-to-date periods by \$6.2 million (\$0.03 per share) and \$12.3 million (\$0.07 per share), respectively.

Commenting on the results for the second quarter 2009, Dr. Paul stated, "As expected, the semiconductors business started to recover in the course of the quarter due to strength in Asia, especially in portable computing. The passive components business was impacted by the weakness of Europe and the Americas, in particular in the industrial end-use markets. During the quarter we reduced our inventories by 7%, and distributors reduced their inventories of our products by 12%. Cash generated from operations was \$69 million and capital expenditures were \$18 million in the first half of 2009. We expect to continue to generate strong operating cash flows for the remainder of 2009, while limiting our capital expenditures."

Dr. Paul continued, "At only slightly higher sales quarter over quarter, our operating results have improved substantially due to our cost reduction initiatives. This progress was not yet reflected in our bottom line due to losses for foreign exchange rate effects recorded in other income (expense), which followed unusually high gains for exchange rate effects in the previous quarter."

Commenting on the outlook for the third quarter 2009, Dr. Paul concluded, "Going forward we expect an even accelerated recovery for semiconductors to be followed by passive components mid-term. For the third quarter we anticipate sales of \$480 to \$520 million at improved margins supported by permanently reduced fixed costs."

Commenting on the Company's acquisition and R&D activities, Dr. Felix Zandman, Executive Chairman of the Board and Chief Technical and Business Development Officer, stated, "During this quarter we announced our settlement agreement with International Rectifier Corporation. Vishay and International Rectifier resolved certain disputes regarding the acquisition of International Rectifier's Power Control Systems business. International Rectifier has refunded \$30 million of the purchase price."

Dr. Zandman concluded, "We have announced a new p-channel product with the lowest resistance and increased cell density. The result of lower resistance is a better performing product in terms of power management. The result of higher cell density is a smaller chip and lower cost to produce it. Reduction of resistance and increase of cell density is the main battleground for low voltage MOSFETS, where Vishay-Siliconix is the world leader. Again, a major first for Siliconix. We are recording strong orders for this product. This is but one example of the intensive R&D activity within Vishay."

A conference call to discuss second quarter financial results is scheduled for Tuesday, July 28, 2009 at 10:00 AM ET. The dial-in number for the conference call is 877-589-6174 (+1 706-643-1406 if calling from outside the United States or Canada) and the conference ID is #18331408. There will be a replay of the conference call from 11:30 AM ET on Tuesday, July 28, 2009 through 11:59 PM ET on Sunday, August 2, 2009. The telephone number for the replay is 800-642-1687 (+1 706-645-9291 if calling from outside the United States or Canada) and the access code is #18331408.

There will also be a live audio webcast of the conference call. This can be accessed directly from the Investor Relations section of the Vishay website at http://ir.vishay.com.

Vishay Intertechnology, Inc., a Fortune 1,000 Company listed on the NYSE (VSH), is one of the world's largest manufacturers of discrete semiconductors (diodes, rectifiers, transistors, and optoelectronics and selected ICs) and passive electronic components (resistors, capacitors, inductors, sensors, and transducers). These components are used in virtually all types of electronic devices and equipment, in the industrial, computing, automotive, consumer, telecommunications, military, aerospace, and medical markets. Its product innovations, successful acquisition strategy, and ability to provide "one-stop shop" service have made Vishay a global industry leader. Vishay can be found on the Internet at http://www.vishay.com.

Statements contained herein that relate to the Company's future performance, including statements with respect to forecasted sales, cash generation, capital expenditures, margins, cost reduction, business recovery, R&D activity, and the general state of the Company, are forward-looking statements within the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements involve a number of risks, uncertainties and contingencies, many of which are beyond our control, which may cause actual results, performance or achievements to differ materially from those anticipated. Such statements are based on current expectations only, and are subject to certain risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. Among the factors that could cause actual results to materially differ include: general business and economic conditions, particularly the current recessionary environment; difficulties in implementing our cost reduction strategies; difficulties in new product development; changes in foreign currency exchange rates; competition and technological changes in our industries; and other factors affecting our operations that are set forth in our Annual Report on Form 10-K for the year ended December 31, 2008 filed with the Securities and Exchange Commission. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Management believes that stating the impact on net earnings of items such as restructuring and severance, asset write-downs and other items not reflecting on-going operating activities is meaningful to investors because it provides insight with respect to intrinsic operating results of the Company and, management believes, is a common measure of performance in the industries in which the Company competes. Investors should be aware, however, that this is a non-GAAP measure of performance and should not be considered as a substitute for the comparable GAAP measure.
